MEDICAL.

R. R. R. LIFE AND DEATH Mysteries of Disease taid open to the People.

Ilealth is the Principle of Life: Disease is the Principle of Death.

The R. R. R. Remedies possess the great power to secure to the human system Health and long Life, and to free the human family from pains, aches, and all bodily infirmities. THE ART OF PRESERVING HEALTH AND THE METHOD OF CURING DISEASE BY THE RADWAY'S READY RELIEF

RADWAY'S MEADY RPLIFF

R. R. R. S.

R. ADWAY'S MEADY RPLIFF

Is to be used in all cases where there is pain. The more a ment it is applied externally, or taken internally, it will allay the most torturing aches, pains, cramps, spassus, burns, scalds, &c., quicker than Murphine, Cliloroform Veratrine, or any otheranodyne or remedy that has ever been used by medical men.

It is stater than these dangerous remedles. The public will lear in mind that Chloroform, Morphine, Option, &c., only stille the pain by supilying the senses, so that the preceptive faculties loose the power of feeling, and that after the influence of these narcoties have passed from the system—the pain again break forth with its terrible bangs, with remewed violence.

Skaldvay's Jeady Relief stops the pain and removes the cause of the disease that occasions; it influses new hife into the weak and disease.

As a counter irritant, Radway's Ready Relief applied to he seriface of the body, where there is inflammation or congestion, it will instantly scatter the congested blood, equalizes the circulation, and in a few mutues the most exercicating pain are removed. This may be seen in cases of Lumbago, Gont, and Rheumatism in their most terrible forms, where an application of Radway's Ready Relief will restore the patient to ease and compile. Crippled with Rheumatism, Jim and Leg perished—No hopes of his recovery—Threly use of R. R. R. —

LETTER FROM 15AAC HUDDLESTONE.

RAPIDS FARISH. Lie., June toth 1863, Medsars, Hadway & Rocaled he had the whole cost of his cure for your medicine, in two months he was carrying the mail from Cherrywille to Burr's Ferry. I objected. He said he must do something to a living. It has been fonderen months since he was cured. He is now well, and is working on his farm, and the whole cost of his cure for your medicine was he well cared. He is now well, and is working on his farm, and the whole cost of his cure for your medicine.

We here direct the attention of the public to our newly discovered remedy—RAIDVAY'S REGULATORS; they possess the great curative properties of a Purgative, eath artie, a perient, sudorific, anno-dyspeptic, corrector and Regulator of the system. They are in fact the only perfocused of given to the work. They are in fact the only perfocused of given to the work. Radway's Regulators will answer a better purpose than Caloniel of Mercury, without entailing on the system the terrible minimos of these baneful drugs.

They are in the form of Pills, elegantly coared with gum perfectly tasteless, and can be taken without sickening o naussating the patient. They are to be used in all cases when the system is CUT of ORDER, or under the influence of disease. One or two doese of Radway's Regulators has frequently checked the progress of the most terribe diseases, the restored the system to health and regularity. RADWAY'S REGULATORS;

rible diseases, and restored the system to means and restants.

They establish new and improved principles in Medicine and secure the great and important power of regulating to a healthy, natural and harmonious accome, each and every organ in the body. This great contralling power has never formed any part of the properties of the popular Cathantic, Vegetalde or Indian Purgative Pils, that have ever even use.

Radway's Regulators mi the system from disease and restore the human body to health, on a tenturely different teen in use.

Radway's Regulators mit the system disease and restone the human boay to health, on a tenturely different principle to the weakening, stekening and griging method of the common enthartic and purgative pills.

Une or two of Radway's Regulators will remove the cause that occasions pain or seckness, ol an irregular or uniatural action or condition of the arguns of the body, quicker, more effectual, and with lev rearries or the patient than six or ten of the common canature or purgative pills. The moment Radway's Regulators are taken ustoned by the system adheted with disease, their equalizing efficacy begins; they search out the elements of disease wherever it may be seared; they not upon the whole surface of the intestines and bowels, attracting the faul and morbid lumors from the blood, gands, secreting vessels, and expelling these seeds of disease from the body, restoring a healthy and regular action to the Liver, Rowels, Pancreas, Heart Kidneys, Bladder, Skin, and all other viscera.

All of the common person the day, called Vegetable, Indian, Catharic, Sc., claim that they cure disease by purging from the bowless by irrigaing the minchous membrane, and thus distant are excutation in the same mamer as the bowless are moved by eating semething that disagrees with and irritates it. Those who have taken these computed in the common plants of the weak and debilitated condition their systems. The first with a first the social pagin become coarse and bound up.—

Royal and the common particles over, the bowless are sore and feetile, and again become coarse and bound up.—

Royal and regular and a host of diseases. Radway's Regulators meetile over the bowles in a costive condition, or occasion pain or weathers in their operation.

Diseases and complaints caused by Exposure and Atmospherical Changes, over which Radway's Readway's Regulary or several their operation.

When the system is hist seases. Radway's Regulary is a sudden cold, or

COLDS AND FEVERS. When the system is first seried with a sudden cold, of fever sets in. A dose of from three to six of Radwa Regulators should be taken—this is all the medicane, this stage of the disease that is required, in a few hours

It inflammation or congestions take place, Radway's
Regulators and Rady Relief should be taken in large dozen,
Regulators and Roady Relief should be taken in large dozen,
a cune will quickly follow them use. In case of Bilions,
ness or Malignant Bilious Fever, or Bilions Pneumona,
Radway's Rigulators, given full losses, and the whole surlace of the body bathed with Radway's Ready Relief, will
iffectually and speedify cure the patient.

IF RIFEUMATISM.

Attacking the foints and limbs, milicious list terrible piece. Attacking the joints and limbs, if oris will expel from the mestines all irritating and corrup himnors.

SMAJI, PIX—SI ARLET FEVER—MEASLES.
Radway's Ready Rehet is not only a cure for these infections maladies, but will prevent those who use the Ready Rehef and Regulators against the infection.

We have known the R. M. Rehef rid chols neighborhoods of the infection of Small Pox and Scarlet Fever. We have likewise known shipmasters who have saved the lives of their creus and passengers, and entirely driven away the Small Pox and Ship Fever from their occasio, by aprinking the Ready of their will have if freely apriliked in places where these contagious and infectious positions Prevent.

There is a department of trade from the Tennessee river that we are about to lose unless some remedy be devised by our merchants. For some time we have had three fine packets engaged in running up the river, but as we understand, they cannot all continue unless business becomes more prosperous. St. Louis is attracting the containing two men and two becomes more prosperous. between this to entirely absorb the trade of that rich and prosperous section contiguous to the Tennessee river y. The party were from Louisville, and were by the want of a market here for the products of radiably over on this side a Manuag, they being the Tennessee valley.—Louisville Courier.

That is not the only cause, and is more imaginary than real. Louisville has a market, and a good one, for nearly all the products of this secin a bottle of brandy. It was a bottle of co-lone, which the ladies to is along to use in pass-for all, if they were taken there for sale. The people of Western Kentucky will not trade with speech. I expressly declared myself an old line a city which refuses protection to its citizens, because of their birth or religion, but which sustains and encourages mob rule. Louisville must clear her skirts of the vile rable which has diswould have saved time and expense and a ridicugrared her, before she can hope for the support lous display of myself hy joining some other free and honest men. HE STATES THE CHARGES OF THE JOURNAL. AND DRAWS A VIVID PICTURE OF THAT PAPER. I have not one of the issues of the Journal be ore me containing its charges, but according to collection they are in substance as follows: 1. That Mr. Dixon and I had violated our 'plighted faith' in repudiating a solemn agree-ment, which it alleges we had "subscribed," ot to speak at Lexington.

2. That the proceedings of the Whig meeting

were furnished to Democratic papers and not to the Journal. (Other papers have also voluntariry made themselves victims of this enormous procription, as if they enjoyed the felo de se). 3. That the speeches of Dixon and myself were speeches in opposition to the Know Nothing party and in the interest of the Democratic narty; and that the probable motive to my de-annelation of the Know Nothing mandate, re-

tance in speaking of the first charge, only beought to be taken for granted that others, less implicated in the charge and therefore presumathe proceedings of that memorable night been faithfully reported, I should have felt no neng the truth, it puts forth in the burn of commentary a series of calamnies equally malignant

and groundless.

I do feel seriously injured by the Journal's ourse, whatever I may think of other papers; for all men of judgment have long known that it is devoid of real influence, simply because its praise of friends and its abuse of opponents have en habitually devoid of discrimination and candor. The functions of the paper are simply give personal annoyance to any gentleman not co-operating for the moment with it-to lash the passions of the base into rage-to aggravate the fury of madmen; and the effects of its labors only correspond to these functions. With all its wit, brilliance and attractiveness, its unprincipled course is only rendered the more pernicious by the very transcendance of those seductive qualities; and no paper in all the land, not excepting those which have made a trade of levv-The lager heer mania still continues to ng black mail, has exhibited a most deplorable influence adverse to principle, morality, and the peace of society. It is a paper which at need, all know, can torget former friendships with as mies; which can praise to-day the man it denonneed yesterday, and abuse to-morrow the man it panegyrized to-day; which will strike a man when he is down and heroize him when up; can turn pigmies into giants, giants into dwarfs, ogres into Apollos, blackguards into gentlemen babblers into statesmen, mobs into ministers of

But there was, as I learned not until after w had spoken, a parlicular understanding between Dixou and Bell that they would not speak; and I learned also, that they expected no one else would could such a charge be fastened on me, not having been a party to their particular understanding spoken till after its violation was completed by Mr Dixon's speech; and neither Mr. Belt ne any other man intimated such an imputation i the offensive sense in which the Journal at other papers attempt to fisten it upon us both alike. The alleged violation of faith occurred i this manner: The President, (Hon. tt. I'zwes after taking the chair at the Court-house, deliver ed an address to the meeting, which is incorpora ted in the official proceedings. He then called on me, as the Secretary, to read the Address to

Whigs of the I'nion and the platform, wide! I did without preface, and concluded without re mark, except simply to repeat the President'sir vitation to any persons approving them to sign the same, and I sat down. A member moved the adjournment of the meeting. Before the motion was put, a cry rang all around the house "Dixon! Dixon! Dixon!" Mr. Dixon, in obedience to the call, ascended the stand, and at setting out avowed simply the purpose of defending himself against the slander that he had proved himself a traitor to the Whig party; and most ouclusively did he vindicate himself. Whether he distinctly traced this slander to the Journal. or I inferred it, I am not absolutely sare; but if the former be the fact, it is additionally explanatory of the Journal's maliguant perversions Dixon, naturally enough, warmed up and expanded his defence into a political speech, though twas evidently an unpremeditated speech. Whil he was speaking, I got the first intimation that his speaking was disrelished; though no explanation was given as to why it was disrelished. I got

down on the steps, hoping thereby to escape a call on me. When Dison was just about concluding, I got my hat and cane to start out, but was arrested by the cries of the audience, advised to speak at least by one who regretted that Dixo spoke, and in spite of my inclination, I felt con trained by the pressure to mount the rostrum. A setting out, I declined discussing national politics at large for the present, on the ground that there would be time enough for that when the other parties should come into the field with their platforms and candidates. I declared that the Address and Platform just read and which had been signed by myself and others, contained my earnest opinions and might stand for my party at home instead of coming to Laxington for such a purpose. I distinctly, though briefly The recommended theorie W. Kavanangh as their choice for Circuit And re.

A meeting was also held in Green county, on the 21 to 6 Ap. 1, and delegates appointed to the 5 me Convention. They made no recommendation for Circuit Angle.

The recommendation is and then let her increhants follow the example of those of St. Louis, who make known their business, and offer inducements for trade. The merchants of St. Louis advertise freely in this section to the Now Nothing party, the Know Nothing party, the Know Nothing party, the Whog party; and so far from affording any ground for the absurd columny. They made no recommendation for Circuit Angles. I may have transcended the limits of good taste by pointing my finger in the eyes of John C. Breckiuridge, and saying when he came into the

field again with the old heresies of Locotocoism, he and I would meet in debate and I would de molish him if I could. I distinctly referred to the desire of some that sions from the Whig ranks, however politely the climax of success by winning the affectious of Prince Bonaparte, then heir appprant to the throne, and would make a good of Prince Bonaparte, then heir appprant to the throne, and completely imprisoned him in the manifold meshes of her [fascination. But Princes are fickle, and Bonaparte is particularly so. During the absence of Rachel in America, he deserted her colors and mounted on his martial arm the favors of a Madame de Piessy; a harming comedienne who consoled him tor the brence of his celebrated mistress. I feel some relucwere to pass over our heads a resolution pledging cause propriety seems to me to intimate that it us to support the Know Nothing nominee for the This warning was repeated after bly more disinterested, would voluntarily come forward to refute it. But perhaps those thus alfamous trick had judged been concocted and that luded to may deem the public declarations made its shameless anthors expected to earry it through. at Lexington on the night of Saturday, the 12th, an ample refutation of this after charge of the effect, into the Know Nothing party, and, at first Journal. Undoubtedly they were so; and had they bore themselves so couldent were they of success-us if they were not engaged in a pieceo chicancry that would add infamy to the name of cessity for any other refutation of the Journal's felon-men who, allowing me a figure of speech, wicked and wanton calmany. But the proceedings of that night, like those of the day, are defined a double title to ignominious execution under the laws of war, having left the Whig iberately ignored or refused admission to the clumas of the Journal; and instead of present-to re-enter it in the character of spies!—shooting to re-cuter it in the character of spies!-shooting being the punishment of the first and hanging that of the last offence! But this trickery was frustrated: as well as bold but honest iduce us to declare on the side of the Democrats. It would shame the Journal-if it were suscepti de to shame-were it proper to repeat the proositions and discussions, and who here lending arts in them, in our private consultations; for it could further expose its groundless calumny, anght up and re-echoed by other papers, that I nade a Democratic speech at Lexington, than which'a more absurd talsehood never was coined even in the fruitful mint of that abandoned paper. I have steadily at Lexington and ev

where, treated the supposition of a Whig-a real houest Whig-joining any other party, not only inadmissable, but as a personal it lignity, and I have uniformly resented it as such The Whigs repaired to Lexington as Whigs, took their stand decisively as Whigs, and deliberately in both their platform and address took ground against every other party.
The facts and circumstances of this case furuishes much ground for the suspicion that the Journal's ruge at the alleged violation of "plighted faith," is not a zeal for the interest of inju honor, but rage at the frustration of the infamonsly treacherous trick by which we were to have been made to do the very thing we went no to do, and not to do the very thing we went to do ad we declared for Fillmore, we would have been, the estimation of the Journal, no doubt, very oble patriots; and in such case, it would even have tolerated our separate Whig organization in party. The Journal was probably a party in the onnection of the treacherous trick; and it rages now, not because we quarrelled—for we met, de-iberated and parted in peace and harmony—but

tween gentlemen who have no misunderstanding among themselves. Livery gentleman of the Whig party will properly appreciate this despicable trick. I do not believe there was one Whig gentleman at the meeting who would have left Leximputation, had any such been made there. In male all Kentucky, it is the journal only that furnisher a cample of a man of that sort of sensibility who does not leel a stain to be more galling than a wound; who eau inflict injury with sell placent impunity; and who can emleavor to incite enmity between friends that only devils would inflame between enemies. But what jurisdiction has the Journal over this matter? What msiness has that paper, or any other outsider, to be thursting increasive ages and impertment voices in Whig councils? If anybody was entiled to complain of violated faith, it was not the Journal; and its arrogant insolence in making ach a charge, is redoubled by the fact that it is solf a shameless deserter from the Whig ranks, whose counsels and jurisdiction in Whig affairs er entterly spurued, and which it would be spect for propriety and delicacy of bearing .-Whoever had a right to complain of any thing has occured at Lexington, both privately and ablicty discissingd any imputation such as the ournal now calumiously hurls at Dixon and Yet, when those who alone were entitled make complaint, publiely disclaim it and pubicly declare their satisfaction, and publicly protain the harmony and union of all, this meddling field of the Journal, having no lusiness with the matter in any possible aspect of it, impudently lares to intrude, and even to go behind the sand nary of a publicly announced adjustment of it onor even the injured party-it any had been

I and cistoog afterwards—I did not see if—that he had copied also the address, which had been left in the hands of two Whigs who proceedings had not been made out from the tes, and nobody connected with any paper saw the only official copy of the proceedings that was made out, till after the packet containing that sole copy reached the Courier office in Louisville. Neitner the Journal nor any other Know-Noth ing paper applied to me for a copy. The Journal, in stating its refusal to publish the proceedmean act-or rather for its mean refusal to do a non, as it is a pitiful invention, no man of right reason can pasify its refusal to publish, and es-

I dismiss with utter disdain the ungentleincited by the connection of my name with an in dependent nomination for the Judgeship. mention of my name in that connection was unexpected and unsolicited, and so far from assenting to it, I have done what I properly could, to withdraw myself from consideration. Besides, every sentiment I uttered at Lexington, had been roctaimed on the stump and through the press before my name was thus mentioned; and, more-over, I had published a card, saying truly, in accordance with the uniform tenor of my life, that I had no thought of being a candidat; or any office. This was at a time, too, when I was at liberty to have entered any p. without any other lucousistency than lowing the Journal's example of deserting the Whig party, and when I had the most unmistakeable assurances that either the Know Nothings for the Democrats would deem my accession to heir ranks they would know how to appreclate. I declined all overtures from all sides. It was Ormond, I think, who valued his dead son Ossory, fallen on the field of honor, above any man's living son; and I preferred the fortunes of my so-called "dend party," tuany rank in any other. I knew it was not dead, tor even betrayal and desertion could not kill it. It was only deserted by shalers; who abandened it only in its moment of numerical weakness, and who I trust will not re-

WASHINGTON, May 6. SENATE.—The morning bour was chiefly occupied in a discussion relative to the proper location of the District of Columbia armory.

House.-The bill making appropriations for consular and diplomatic expenses was taken up

and passed. Benuett, of New York, from the committee on public lands, reported a bill granting alter-nate sections of lands in lows, to nid the railroads now in progress of construction. He sail Meigs, President of the American Institute, "That three millions acres had been granted to Missouri and Arkausas each.
This bill would not require more than half that

quantity, and contained the usual restrictions guarding the rights of the United Ssal-s. The nittee have other similar bills before them, received the award of a Silver Medal from the and desire prompt action on this in order to ascertain the tempers of the Houses on the subject Mr Stevenson made an ineffectual effort to offer an amendment extending all the rights, privileges and heretofore conferred on lowa to Louisiaua. Arkansas, Missouri and Kansas for the purpose of aiding the construction of a railroad

> terms and restriction. Mr. Benuett said that thus adding 1600 miles of railroad would break down his bill. Mr. Jones of Tenn., moved to lay the subject on the table which was disagreed to: year 45 But slight symptoms are manifested of a change

> of inclination consequent upon the misgivings in other quarters. The military commission sent out by our govrament to visit Schastopol called on the Secretary of State to-day and informed him that they called on the French Minimister of war while in Paris for permission to visit and examine the fortifications around Paris but were treated very shabbily and were informed by him that they could not have permission to do so.

> WASHINGTON, April 6. The Cabinet meeting yesterday resulted in no further action upon the vecognition of Walker's Government or the reception of Minister Vigil, the question upon its adjournment basis at the meeting of last Thursday, when the majority voted affirmatively and subsequently, to which the President authorized Mr. Heiss to bring a new Minister. Indeed, it is understood that matters had progressed so far that Padre Vigil's presentation speech was prepared, and the points either had been or would be submitted to the President for arrangements of a reply. It may now be assumed for certain, if Mr. Pierce adheres to his recent inclination, that Walker will be recognized despite any disagreement in the Cabinet upon the policy of the act. A CASE FOR URNITHOLOGISTS-AN EAGLE HATCH-ED AND NURSED BY A SHANGHAL.—About six weeks ago Mr. Robert Cameron, who resides on the Miami river, a few miles below Hamilton, Butler county, (1., disrovered a bald cagle's nest on a huge Sycamore tree standing near the river, and one of his sons, an active and adventurous fel-low, by "tall climbing" reached the eyrie, and made u prize of two eggs of the bird of our country, which were at once deposited under a "set ting hen," and in two weeks a fine, Justy eaglet pecked the shell, and made his appearance, with less pain and pomp and circumstance than attended the birth of the 'enfant de France.' One of the eggs proved a failure, and this, with the eggs of the hen, were thrown away, it heing considered that the harnyard fowl would have nite enough to attend to in the person of the feathered "prince imperial;" and the chicken and eagle are both, we are pleased to learn, doing as well as could be expected. The plebeian nurse-fowl is, we are informed by Mr. Camerou, apparently, at times, very much astonished at the ec-centricities of His Royal Highness, the infant bird of Jove, whose keen, unflineing eyes, and stout, sharp, crooked beak, and appetite for fish and flesh, are slightly terrible, and beyond her appreciation. Still she attempts to relieve his wants with true motherly devotion, and in trying to induce him to take a promenade, clucks at him vainly by the hour. His legs are not ser-viceable, and disclaiming to crawl after her, he looks with eager aspirations, as becomes his illustrious race, skyward. He is very foud of fish, and luxuriates in rats and snakes, though he is not yet strong enough to skin them for himself.
The quantity of skinned garter snake that he consumes is queer, he being competent to dispose of almost his weight in that article of prepared

Tonics Won't Do!

THEY never diddo more than give temporary relief, and they never will. It is because they don't touch the vase of the charse of all ague and bilious diseases is the atmospheric puson called Massina or Malaria. Neutralize this posson by its Nattenal antiboration, and all disease caused by it disappears it once. Rhode's Fever and Ague Cure is this Anniele to Milaroa and moreover it is a perfectly harmless medicine. The certificate of the celebrated chemist, J. R. Chilton, of New York, to this effect is attached to every bottle; therefore it it does no good it can do no harm.
This is more than can be said of Quinine, Arsenic, or any tonic in existence. The moment a person takes these, his head and cars keep up a confinual ringing, the sight is always affected, and the whole nervous system seems string upon weres. Swelled heads and swelled legs are not uncommon. yonan, or child. Las. A: Rhodder, Genngerown, China, March 17, 1856.

The Cure arrived so taile last year, that the demand for any remedy was prestly mereased, from the Experienced considerable difficulty in gening any one to dy it. And this difficulty was greatly increased, from the lact that a remedy had been introduced which was growing in theory with the public, as being better than using Chunne,—not knowing I presume, that the remedy they used to escape taking Chinne, contained the drift at ITESLE.

One difficulty was to be overcome which amounted to a prejudice with a few, which was, the remedy would invariably rease an ague, but it will not cure it, as it would often return will remewed vigor. This one circumstance I deemed in your layor, it I could institute a test comparison with the remody t allude to., known as "Smith's Tonic,") and your circus. The billowing is the result:

There persons look your "Plure," all of which were case of "Quoridan Internitient bevor," of many weeks standing: they had tried Guinne aid other remedies, occasionally missing a chill, hatti was, (as in such essee,) slowly wearing them out, and laying the foundation of other and severer maladies. I did succeed in effecting a radical cure of all three of these cases with your remedy, and they have not had a chill since. In all three of these cases, the "Femilis" Tonic" had been used, and would, as before stated, break the chilp, hut after a period or two lad elapsed, it would seturn.

I think there will be no difficulty now in giving to your "Cure" the vantage ground of any other remedy now in use here, &ir.

I be to remain your object cry, e.C., WILLIAM BUTNNER, M. D. Rhodder, the only harmless remedy in existence.

WILLIAM BUTKNER, M. D.

RHODES' FEVER and AGUE CURE, or ANTHOTEE TO MALARIA, the only barmless remedy in Existence, is equally
certain as a Preventing, as a "Cure." Take if when you
feel the childs coming on, and you will never have a single
